

Numbers Don't Lie.

According to the Center for Disease Control...

From 1979-1996 - a 17 year period - 60 people died as a result of a Pit Bull attack. That is 3.5 deaths per year.

From 1990-2000 - a 10 year period - 147 children died as a result of playground injuries. That is 14.7 deaths per year.

Which are more deadly...playgrounds or Pit Bulls? YOU decide!

Please don't jump to conclusions... Stop! Think! Listen! Learn!
