

## What's a 'Pit Bull'?

Officially known as the American Pit Bull Terrier, the Pit Bull is recognized as a breed by the United Kennel Club (one of the largest dog registries in the world (as well as other orgs.))

The Pit Bull has been officially recognized since the 1800's, but its ancestors (working bulldogs and terriers) have been around much longer.

The Pit Bull was created and has always been bred to be sweet-n-stable and non-aggressive towards people!

Ruff-n-tumble with other dogs at times, the Pit Bull has a long history of working side by side with people performing tasks like butcher's catch dog, working farm dog, fighting dog, and always most importantly as a cherished family companion animal. Modern Pit Bulls excel in police work, agility, tracking, therapy dog work, and more!
